

Sales Information Sheet – Spares – PAC Accessories

Supply+ is a Master UK distributor for the PAC tool mounting system, offering a range of accessories for the secure mounting of your fire equipment - with built-in easy release as required.

PAC was developed in the United States and fulfils all the requirements of the NFPA 1901 standard. It is tried and tested, used by Military and Emergency Services and has been in service in the UK for many years.

The PAC system offers a wide variety of mountings to suit different makes and models of tools. Its rigorous testing means that all of these are carried securely in the vehicle and are in the right place for speedy access.

PAC brackets are non-conductive, weather / UV resistant and can be mounted in a variety of positions.

Contact us for further details and to offer guidance on the right product to meet your requirements. PAC can be ordered directly with stock to hand, or it can be supplied to fire vehicle builders so that a new build vehicle arrives fully kitted out and ready to go.
